What do you fancy today? It all tastes great at elements!

Let Gustino guide you through the menu

Kids love elements too! We've put together this special menu with our younger guests in mind – full of so many delicious dishes, they'll be spoilt for choice.

You'll also want them to meet Gustino – he pops up through the menu to indicate the 'balance' options: items that are especially recommended by our nutrition team for their ingredients and preparation methods.
